

## ***7 NEW LANGUAGES FOR THE SDS-R TOOL***

The SDS-R tool is the first REACH friendly tool for Plastics Recyclers. It gives Recyclers case specific Safety Data Sheets (SDS) based on information on their waste input.

With this tool Recyclers will be able to comply with REACH obligations as outlined in the Guidance on Waste and Recovered Substances.

Specifically by:

- Providing SDS to customers (Art. 31 & Art. 32 of REACH)

### ***Other advantages include:***

- Tailor-made SDS based on industry knowledge of compositions
- Background report prepared by a Toxicologist
- SDS updated regularly
- Guidance document with instructions for use of the tool and details on risk management procedures
- SDS available in 14 EU languages
- Compatible with various production sites
- Special waste cases will be examined by the SDS-R team to produce your specific SDS (subject to additional consulting fees)

## ***This user-friendly tool takes only a few steps:***

You input details on your company and the type and concentration of substances used.

The tool calculates the details of your SDS.

Your SDS is ready to download!

Webinars have been organized for the following dates to allow you to obtain a full explanation of the tool from your own offices

- 5 December 2011 (14.00—15.30 CET)
- 16 December 2011 (10.00—11.30 CET)

To register please e-mail [sdsr@plasticsrecyclers.eu](mailto:sdsr@plasticsrecyclers.eu) with the subject line 'Webinar Registration'

### ***Annual Access Fees***

Category I (Access to all SDS)

- EUPR & REACH Club Members: 900 Euro (+21%VAT)
- Non-Members: 1800 Euro (+21% VAT)

Category II (Access to all SDS except those containing Substances of Very High Concern or classified substances)

- EUPR & REACH Club Members: 450 Euro (+21% VAT)
- Non-Members: 900 Euro (+21% VAT)
